Videos on research projects – mandatory for all fellows

As described in Annex 1, the Description of Work for BIBAFOODS, all ESR and ER fellows must make short videos (60 seconds) about their research projects to be placed in the BIBAFOODS website and at YouTube. The videos should address a wide audience, and must be completed before the end of January 2015. Please contact Gemma Montalvo García (gemma.montalvo@uah.es) for further details. If you prefer, you can update your videos later on in the project.

File sharing site

As mentioned in the previous newsletter a Sharepoint site for BIBAFOODS has been set up. In order to join the site, you will need to **send a mobile telephone number to Henriette** as the initial password will be sent to you by SMS. Please notice that the mobile telephone number must be written exactly the way that it should be dialed from abroad – i.e. avoid any excess zeros only used for local calls. University of Copenhagen employees access the site via their KU credentials.

First Annual BIBAFOODS School and Scientific Kick-off Meeting – mandatory for all fellows

Detailed information about the First Annual School and the Scientific Kick-off Meeting has been published at <http://bibafoods.ku.dk/training/>. All fellows employed at this stage must participate in both the kick-off meeting and the annual school – and it will be a great opportunity for you to meet and network with your colleagues across Europe.

In the Kick-off meeting, we expect every fellow and one supervisor or mentor per fellow to participate. Many of you have already registered, but if not, please sign up for the events at <http://doodle.com/dtwst9wvb9tv97kx>: enter your name and put a tick mark for the day you will be there (joint registration for Kick-off meeting and Supervisory Board Meeting).

Second Supervisory Board Meeting – mandatory for Supervisory Board members (or their replacements)

The second Supervisory Board Meeting will be held in connection with the Annual School and Scientific Kick-off Meeting on **9 January 2015**. All Supervisory Board members should attend the meeting, or make sure to send replacements. Please add your name to the registration list at <http://doodle.com/dtwst9wvb9tv97kx> if it is not there already. You are welcome to bring a colleague from your administration to the meeting, but please let us know of your participation no later than **30 November 2014**. The agenda for the Supervisory Board meeting will become available at <http://bibafoods.ku.dk/meetings/> by 30 November 2014. If you have suggestions for the agenda, please send to Henriette (henha@food.ku.dk).

Progress report – mandatory all partners

The first progress report for REA (the Research Executive Agency, acting on behalf of the European Commission) is due **2 March 2015**. REA has recently declared a low-tolerance policy for delays in reporting to all FP7 project coordinators, so we kindly ask you to put the reporting at the top of your priority list. You will be prompted for contributions to the report during **January and February 2015**. In case we do not deliver the report by 2 March, REA can decide to put all project activities on hold until they receive the report.

Although the Coordinator is responsible for submitting the progress report it is also the responsibility of every partner in BIBAFOODS to supply information to the Coordinator, University of Copenhagen, for the report. Henriette Hansen (henha@food.ku.dk) will act as coordinator for the reporting and along with Jens Risbo (jri@food.ku.dk) edit the final version.

We look forward to meeting you all in Coimbra in January.

Best regards,

Jens Risbo – Scientific Coordinator and Associate Professor, University of Copenhagen (jri@food.ku.dk)

Marité Cárdenas – Associate Professor, Malmö University (marite.cardenas@mah.se)

Line Lenskjold – EU Officer, University of Copenhagen (line.lenskjold@adm.ku.dk)

Henriette Hansen – Administrative Coordinator and Senior Consultant, University of Copenhagen (henha@food.ku.dk)
